

Olivin
OLIVES

SERDAR

Olivin Olives, a long standing family company, has been serving in olive sector for three generations starting from 1960, when it had been established. Today all kinds of olives are processed by traditional methods in the plant in Akhisar, Manisa and production reliability is guaranteed by international quality certificates.

Considering different needs and requests in black and green olive production, Olivin Olives produces all kinds of whole, stuffed, pitted or scratched olives fulfilling the HACCP quality plan, ISO 9001:2000 and BRC international standards.

Olivin Olives pays importance to customer needs also in product presentation and serves olives in glass jars, tins, vacuumed and plastic packages according to customer requests. As well as the wide distribution network in the domestic market, Olivin Olives delivers olives all over the world via exports to wholesalers and packers in North America, Australia and EU countries and offers this traditional taste both in domestic and international markets.

Olivin Olives continues business in olive sector with its high quality sensibility and customer-oriented approach in order to meet the demands both from Turkey and the world. Olivin is committed to offer olives - a very valuable fruit with an increasing importance as a result of healthy food consumption awareness - to the world under very good conditions, increase food security to the highest level and maintain continuous improvement in all aspect of the business to enhance customer satisfaction.

A close-up photograph of several black ripe olives in a white ceramic dish. The olives are dark, almost black, and have a glossy, reflective surface. They are arranged in a cluster, with one olive in the foreground being particularly prominent. The dish is set on a wooden surface, and the background is softly blurred, showing a yellowish-green object, possibly a lemon or a piece of fruit. The lighting is bright, highlighting the texture and sheen of the olives.

Akhisar

Akhisar is a district located in the Aegean province of Manisa. Beside its rich history and geographical beauty, Akhisar is remarkable for providing health and taste to the world cuisine.

Recently Akhisar has been a synonym for table olive industry not only in Turkey but also in the world. Akhisar has two unique varieties: One is USLU type black olives, the other is DOMAT type green olives. In its modern olive orchards, Akhisar has all the varieties growing in Turkey as well as the mentioned two varieties.

People in Akhisar has also great awareness to harvest their olives in good techniques at high qualities. Existence of a technical faculty for olive cultivation and processing in Akhisar is the reflection of the value given to this treasure - OLIVE in the region.
